PRAWAL SHARMA

Technology Manager · AI-Driven Engineering Leader · Cloud & Scalable Systems

Delhi, India · +91 98911 14036 · prawal0007@gmail.com · linkedin.com/in/sharma-prawal

PROFESSIONAL SUMMARY

Technology Manager with 9+ years of experience leading engineering teams and delivering scalable, high-impact systems for global clients across the US, UK and South Africa. Specializes in AI-enabled, cloud-native solutions — LLM integrations, intelligent automation, microservices, event-driven and serverless architecture — combining strong engineering fundamentals with modern AI tooling. Track record of 100% client satisfaction, zero escalations and multi-year client retention across Media (advertising data) and Banking (payments) domains. Claude Certified Architect (Anthropic); AWS, Azure and GCP certified. Valid B1/B2 visa with onsite US client experience.

9+ yrs engineering & team leadership	**160K+** daily banking transactions at 99.9% uptime	**20–30%** productivity lift from AI-assisted workflows	**200+** data sources integrated on one platform

CORE COMPETENCIES

AI Strategy & Intelligent Automation · LLM Integrations & Agentic AI (MCP) · Scalable System Architecture · Microservices · Event-Driven · Serverless · Cloud Engineering (AWS · Azure · GCP) · Full-Stack: Node.js · React · GraphQL · Engineering Leadership & Mentoring · Global Stakeholder Management · Agile Delivery & Process Automation

PROFESSIONAL EXPERIENCE

Successive Digital · Noida, India

Aug 2017 – Present · 9 yrs

Technology Manager · Hybrid — Nov 2024 – Present

- Lead multiple global client engagements, ensuring consistent delivery, quality and stakeholder alignment with teams in the US, UK and South Africa.
- Drive engineering strategy across projects with a focus on scalability, performance and system reliability.
- Introduced AI-assisted development practices (code generation, debugging, documentation automation), improving engineering productivity by ~20–30%.
- Identify opportunities for AI-driven features and intelligent automation; built AI POCs including LLM integrations and intelligent data workflows.
- Mentor engineers and strengthen team capabilities across full-stack and cloud technologies.

Technology Lead · Hybrid — Jul 2021 – Nov 2024

- Led end-to-end delivery of multiple applications for global clients with 100% client satisfaction and zero escalations, contributing to multi-year engagements.
- Owned architecture and execution across MERN, PHP and GraphQL ecosystems; managed cross-functional teams (PM, QA, BA).
- Improved delivery efficiency through automation, process optimization and AI-assisted workflows.

  Connectors (Media · team of 11): Platform integrating 200+ data sources (Facebook Ads, Google Campaign Manager) with OAuth, data ingestion and reporting.

  Data Serve (Media): Centralized data platform integrating GCP, Azure ADLS, AWS S3 and Snowflake; automated enterprise data pipelines.

  Enrollment & Transactions (Banking): White-labeled ACH debit payment solution with fraud detection and transaction workflows for a US bank.

Software Engineer — Oct 2019 – Jul 2021

- Acted as Technical Lead managing 3 parallel application pods for a global advertising enterprise.
- Delivered scalable applications with Node.js, React, Redux and GraphQL; ensured production releases with strong quality benchmarks and multiple client recognitions.

Associate Software Engineer — Mar 2018 – Sep 2019

- Led a team of 4 engineers and independently handled project delivery; built scalable APIs and optimized backend systems.
- Improved customer satisfaction by ~50% through performance and reliability enhancements (Node.js, React, PHP, GraphQL, Express).

Software Engineer Trainee — Aug 2017 – Feb 2018

- Developed internal tools — meeting-room booking and HR letter automation (PHP, Laravel, Lumen).

SELECTED PROJECTS

Data Refinery — Media advertising · Technical Lead · 2019 – Present
Governed data-activation platform serving 87+ sources with 1–2 day onboarding for Dentsu International's media operations — Connectors for automated fetches, Trifacta recipes for cleansing, Data Serve for delivery to S3, GCP, Snowflake and analytics tools.

BIM — Enrollment & Transactions — Fintech / banking · Team Lead & Engineering Manager · 2017 – Present
White-labeled ACH payment platform for merchant, mobile and web commerce: enrollment APIs, transaction operations, fraud detection and scoring, compliance reporting; Plaid and Socure identity flows (PHP, MySQL, React).

AI-Driven Datasource Intelligence — AI / ML POC · 2026 · with Amit Bora
AI assistant that learns from historical pipeline behavior to predict schedule risk and configuration success before the first run, using XGBoost and explainable AI to show why a setup is risky.

Taxonomy — Media advertising · Senior Developer
Dynamically generated Handsontable spreadsheets producing unique campaign identifiers with dependency-driven rules for partners such as Coca-Cola and Microsoft (React, GraphQL, Apollo, Node.js, MongoDB).

TruckBoard · ACL URL Shortener · StormSmart — Transportation · Banking · Operations
Fleet tracking and booking with map views (React, Redux, Laravel, Google Maps); single and batch URL shortening with reporting for bank promotions (Node.js, MongoDB); admin and CRUD platform for a services business (Laravel, PostgreSQL).

TECHNICAL SKILLS

AI & Architecture: LLM integrations, Agentic AI, MCP, Claude API & Agent SDK, Prompt engineering, Machine learning (XGBoost), System design, Microservices, Event-driven, Serverless
Backend & APIs: Node.js, GraphQL, Apollo GraphQL, REST APIs, Express.js, PHP, Laravel, Lumen, Python, Java
Frontend: React, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, jQuery
Cloud & DevOps: AWS, Azure, GCP, Docker, Git, Bitbucket, Linux, CI/CD
Data: MongoDB, PostgreSQL, MySQL, Snowflake, Azure ADLS, AWS S3, data pipelines
Practices: Engineering management, Agile/Scrum, Jest & testing, design patterns, code review, stakeholder communication

CERTIFICATIONS

- **Anthropic:** Claude Certified Architect – Foundations (2026)
- **AWS:** Certified AI Practitioner (2025); Certified Developer – Associate (2022); Certified Solutions Architect – Associate (2021); AWS Partner Cloud Economics, Business & Technical accreditations
- **Microsoft:** Azure AI Fundamentals (2022); Security, Compliance & Identity Fundamentals (2022); Azure Data Fundamentals (2021); Azure Fundamentals AZ-900 (2021)
- **Google Cloud:** Cloud Digital Leader
- **Apollo GraphQL:** Graph Developer – Professional (2022); Graph Developer – Associate (2022)
- **Scrum Alliance:** Certified Agile Leadership Essentials, CAL-E (2023)
- **ICTRD:** Artificial Intelligence and Machine Learning Program (2026)
- HackerRank — 11 skill certificates (JavaScript, Node.js, REST API, React, SQL Advanced, Problem Solving)
- 71 credentials in total on LinkedIn, including LinkedIn Learning, Pluralsight and MongoDB University courses

HONORS & AWARDS

- **ESOP Ownership Achievement** — May 2026
- **Outstanding Contribution** — May 2026
- **Employee of the Year** — 2023
- **Key Contributor** — Apr 2023
- **Longevity Award** — Apr 2023
- **Exceptional Performer** — Mar 2022
- **Extra Achiever's Award** — Mar 2021
- **Client Happiness** — Mar 2019
- **Star Performer** — Feb 2019
- **Star Performer** — Jul 2018

EDUCATION

Bachelor of Technology — Computer Science — Maharshi Dayanand University 2012 – 2016

ADDITIONAL

- Contributor — "The Subtle Art of Effective Communication" (organizational book on communication and listening).
- Conferences — AI Impact Summit 2026 and Convergence India Expo 2026 (Bharat Mandapam), AWS Public Sector Symposium 2023, MongoDB.local, IAMAI India Digital Summit; dentsu "Building Generative AI Solutions" hackathon (2023).
- 15 LinkedIn recommendations from managers, peers and team members.
- Languages — English · Hindi · Punjabi (native or bilingual).
