EXPERIENCE

Successive Digital · Noida — Aug 2017 – Present

Technology Manager — Nov 2024 – Present

- Leading multiple global client engagements across US, UK and South Africa, ensuring consistent delivery, quality and stakeholder alignment.
- Introduced AI-assisted development for code generation, debugging and documentation — improving engineering productivity by ~20–30%.
- Built AI-based POCs including LLM integrations and intelligent data workflows; mentoring engineers across full-stack and cloud.

Technology Lead — Jul 2021 – Nov 2024

- Delivered end-to-end engineering for multiple large-scale applications with 100% client satisfaction and zero escalations, contributing to multi-year client retention.
- Connectors Platform (team of 11): data integration across 200+ sources incl. Facebook Ads and Google Campaign Manager — OAuth flows, ingestion pipelines, enterprise reporting.
- Data Serve: centralized data platform integrating GCP, Azure ADLS, AWS S3 and Snowflake. Enrollment & Transactions: white-labeled ACH debit payments with fraud detection for a US bank.

Software Engineer — Oct 2019 – Jul 2021

- Acted as Technical Lead managing three parallel application pods for a global advertising enterprise.
- Delivered scalable applications using Node.js, React, Redux and GraphQL; mentored junior engineers.

Associate Software Engineer — Mar 2018 – Sep 2019

- Led a team of four engineers and independently handled project delivery.
- Improved customer satisfaction by ~50% through performance and reliability enhancements.

Software Engineer Trainee — Aug 2017 – Feb 2018

- Developed internal tools including meeting booking and HR automation systems.

GirnarSoft · Gurugram — Software Trainee. Worked on CarDekho and BikeDekho platforms using Laravel. — Jan 2016 – Jun 2016
